E-XPAND, E-NHANCE, E-XCEL.

INTRODUCING THE E-SERIES

The new E-Series Wheeled Excavators complete the CASE product range, offering invaluable benefits in terms of versatility, performance, efficiency and serviceability.

Whether you're looking to expand your business's arsenal or enhance the services you offer, these new models are the ideal tool: designed with both owners and operators in mind, E-Series machines excel at delivering phenomenal power coupled with the finest controllability, unrivalled safety and comfort, superior ease-of-use and uptime to tackle any job, anytime, anywhere.

WHY IS THE E-SERIES SO EFFECTIVE?

RELIABILITY AND PERFORMANCE AT YOUR DISPOSAL

Tackling practical necessities with smart solutions, E-Series Wheeled Excavators combine a multitude of valuable tools and functionality. With a focus on versatility, and featuring numerous customisable solutions, these innovative machines effortlessly adapt to your every need.

Cummins Stage V complaint engine, without EGR and compatible with synthetic fuels for increased fuel efficiency.

Storage for 20 hydraulic tool configurations in the display for extra flexibility.

Electronically controlled reversible fan for improved cooling efficiency.

Eco gauge and Eco reports for maximum control over fuel consumption.

8" touchscreen main monitor with additional safety camera display for enhanced visibility.

Ergonomic proportional control joysticks with manual front axle lock and power boost for ease of use.

Heavy Duty, Standard and Eco power modes, plus customisable user mode for tailoring settings to the operator's every need.

DISCOVER ALL
THE FEATURES

EXPAND YOUR BUSINESS WITH CASE WHEELED EXCAVATORS.

IT'S EASY LIKE COUNTING UP TO SIX!

1

DOWN-TO-EARTH RELIABILITY AND EFFICIENCY

Bosch Rexroth advanced flow sharing (LUDV) hydraulics;
Eco mode, gauge and reports;
Compatible with biodiesel up to B20 plus HVO, GTL, CTL and BTL, as well as Panolin bio oil option.

2

EXCEPTIONAL VERSATILITY AND FLEXIBILITY

Three power modes plus customisable mode;
Ability to store attachment types and names in the display;
Broad choice of undercarriage configurations.

3

ALL-AROUND COMFORT AND CONTROLLABILITY

Joystick with proportional controls and optional joystick steering;
Auto digging brake option;
Ride control and boom flotation option;
Telescopic steering wheel.

WATCH THE FULL
WALKAROUND

4

VISIBILITY OF THE HIGHEST ORDER

8" touchscreen monitor plus
secondary camera display;
Optional rear mirror camera and
360° CASE Maximum View Monitor
with human recognition;
Parallel windscreen wiper.

5

DESIGNED WITH SAFETY IN MIND

FOPS level 2 head protection;
Rear radar detection;
Optional swing lock feature.

6

EFFECTIVE, EFFICIENT MAINTENANCE

No EGR, reducing ATS complexity;
Standard cooling reversible fan;
Cyclonic self-cleaning
pre-filter option;
1,000 hours service intervals for
fuel filters.

CLEANER, GREENER POWER.

SUSTAINABILITY CHANGES THE WORLD

Each and every component contributes to creating a high-performing machine that can be operated according to your own needs and preferences, delivering maximum output when required or striving for fuel efficiency to improve running costs.

ECO FUNCTIONALITY

Achieve fuel savings with the help of the Eco fuelower mode, Eco gauge and regular Eco reports.

FOUR POWER MODES

Heavy Duty, Standard and Eco modes available, along with a customisable User mode.

CUMMINS ENGINE

Provides a reliable and efficient solution for meeting Stage V standards.

PANOLIN BIO- DEGRADABLE OIL

An eco-friendly oil alternative that still ensures excellent performance and longevity.

CLARITY AND PRECISION IN EVERY AREA.

THE ULTIMATE TECHNOLOGY IN THE CAB

With all-around comfort and controllability, and visibility of the highest order, E-Series Wheeled Excavators improve satisfaction, however tough the job. For instance, the pneumatic-suspension high-back Grammer seat with heating function enhances comfort whatever the weather.

TWO MONITORS

8" touchscreen main monitor with additional secondary display, ensuring the camera view is always on screen.

TELESCOPIC STEERING WHEEL

Provides easier adjustability and increased comfort when getting in and out of the cab.

AUTOMATIC DIGGING BRAKE

Keeps the machine stationary while working and moving regularly without the need for continual effort.

JOYSTICK STEERING

Improves comfort for driving the machine around the job site without getting the hands off of the joysticks.

LISTEN TO OUR
CUSTOMERS' VOICE

PROTECTION THAT INSPIRES CONFIDENCE.

SAFETY AND MAINTENANCE

Designed with safety and serviceability in mind, you can keep your E-Series Wheeled Excavators running with ease while putting your safety first. For instance, the reinforced cab structure is ROPS and FOPS compliant, with standard FOPS level 2 head protection.

ALARMS

The travel alarm improves safety when the machine is moving, while the overload alarm helps when handling loads.

REAR RADAR DETECTION

Available on conventional tail-swing models and works within a 10x10 metres area.

SERVICE INTERVALS

Recommended every 1,000 hours for the fuel filters and every 800 hours for the engine oil and oil filter.

REVERSIBLE FAN

An electronically controlled fan for improved radiator cleaning and cooling efficiency.

STANDARD AND OPTIONS

STANDARD EQUIPMENT

ENGINE

Cummins B4.5, 4-cycle, turbocharged, charge air cooled, electronic controlled diesel engine
Stage V
Selective Catalytic Reduction (SCR)
Diesel Particulate Filter (DPF)
Diesel Oxidation Catalyst (DOC)
EGR-free
Wastegate turbocharger
Electronic fuel injection
High pressure common rail system
Auto engine preheat
Emergency stop switch
Remote oil filter
Dual-stage air filtration
Fuel cooler
800-hour engine oil and filter change interval
1,000-hour fuel filters change interval
24-volt system
Battery disconnect switch
Cooler with removable dust net
Fuel filter + fuel prefilter with water accumulation indicator
Electric refueling pump
Reversible cooling fan electronically controlled
Cruise control

FUEL ECONOMY SYSTEMS

Eco mode
Auto idle
One-touch idle
Idle shutdown
Eco gauge
Eco reports

HYDRAULICS

Auto or manual power boost
2-speed 4-wheel drive hydrostatic transmission
Auto travel speed change
Creep speed

3 selectable power modes with additional user selection mode
3 selectable work operation modes
Overload warning device
Boom and arm safety valves
ISO pattern controls
Pre-set auxiliary pump settings
Switch controlled auxiliary selection
Auxiliary valve
Multifunction (hammer/shears) high flow circuit with electrical proportional control
FNR control switch
Automatic swing brake
Auto safety lock
Oil cooler
5,000-hour hydraulic oil change interval
2,000-hour hydraulic tank suction strainer change interval
Hydraulic quick coupler provision
Hydraulic fluid supply port with air breather

UPPERSTRUCTURE

ISO mirrors
Handrail – RH access
ISO guard rails
Cab suspension with silencer blocks
Lifting eyes for counterweight
Lockable fuel cap, service doors and toolbox
Rear view safety camera

OPERATOR STATION

ROPS protection
FOPS guard OPG level 2
Tempered safety glass with laminated windshield
Sun visor
A/C, heating and defrosting with automatic control
Telescopic steering wheel
Cup holder & sunglasses case
Adjustable air suspension tiltable and heated seat

Tiltable joystick console
Seat belt with fasten detection
Adjustable armrests
USB radio with MP3 player and hands-free
Bluetooth kit
Multifunction touchscreen color monitor (8") with Android mirroring
Secondary camera display
16 selectable languages for monitor
Jog dial
Anti-theft system (start code system)
Split type floor mat
12-volt and 24-volt electric sockets
6 LED work lights (2 cab roof, 1 LH boom, 1 RH boom, 1 cab rear, 1 rear camera)
Parallel double windshield wiper
Hot & cool box, document holder & luggage space

ATTACHMENTS

Mono boom 4.6 m [WX140E / WX155E SR] or 5.0 m [WX160E / WX175E SR]
2-piece boom 4.7 m [WX140E / WX155E SR] or 5.1 m [WX160E / WX175E SR]
Arm 2.45 m
Attachment types and names storable in the display
Selectable activation type (push, proportional, detent)

UNDERCARRIAGE

Front oscillating and rear rigid heavy duty axles
Front axle cylinders safety valves
Tube twin tires with stone ring 9.00-20 PR 14 [WX140E] or 10.00-20 [PR 14 on WX140E, PR 16 on WX155E SR / WX160E / WX175E SR]
Rear blade
Lashing points
LH side toolbox
Wheel chocks

OPTIONAL EQUIPMENT

ENGINE

Engine pre-filter self-cleaning cyclonic type

HYDRAULICS

Clamshell circuit
Low-flow circuit, proportional control
Fine swing control
Swing lock control
Joystick steering control
Automatic digging brake
Ride control with boom flotation
Travel speed limiter (20 km/h)
Panolin bio oil
ISO/SAE pattern control change valve

UPPERSTRUCTURE

Heavier counterweight [only WX140E Mono / WX160E Mono]
Customized paint job

OPERATOR STATION

Front cab guard - vertical bars (OPG level 2) including 2 extra cab front lights
RH rear mirror camera
CASE Maximum View Monitor - 360° view with four cameras enabling pedestrian recognition and warning
Rear radar detection [WX140E / WX160E]
Smart key
Cab roof LED beacon

ATTACHMENTS

Arm 2.00 m / 2.60 m
Arm 3.10 m [only WX140E Mono / WX160E Mono]

UNDERCARRIAGE

Wide axles [WX160E / WX175E SR]
Solid twin tires 9.00-20 [WX140E] or 10.00-20 [excluding WX140E]
Plastic fenders steerable on front axles
Trailer hitch preparation
Rear stabilizers
Rear blade with front stabilizers
Front blade with rear stabilizers
Front and rear blade
Front and rear stabilizers
Rear blade or stabilizers can include also front bucket rest [excluding WX140E] or grab bucket rest
RH side toolbox

Standard and optional equipment shown can vary by country.

SPEC SHEET

BUILDING ON OUR HERITAGE.

Since 1842, at CASE Construction Equipment we have lived by an unwavering commitment to build practical, intuitive solutions that deliver both efficiency and productivity.

The vast CASE dealers' network is always ready to support and protect your investment.

At the end of the day, we do what's right for our customers and our communities so that they can count on CASE.
